

Sigma Nu Gamma Theta Chapter Security Plan

Sigma Nu is always concerned with security as we have a responsibility to our brothers and guest to keep them safe. Our security plan is compiled into three sectors. First the main entrance security, second, party patrol, and lastly house security as a whole.

Main Entrance Security:

For all of our events, alcoholic or not, the guests enter through our main entrance at 230 Willard Way. To ensure the safety of our guests, during the winter the stairs outside are shoveled and salted. Once the guests arrive at the door, two sober monitors are present to check if the guests are on our guest list (which is compiled with the help of the accompanying sorority). If the guest are on the list then are then granted entrance to the house. If they are not on the list they are presented with the number of local cab companies and asked to leave the property in a respectful manner.

Party Patrol:

Due to the fact that our main entrance enters directly into our social area, the guest will be in the party within a few feet. The entrance area is reserved for our sober monitors, so the guests are asked to move forward into the party or step back outside. During the party, if we have alcohol, sober monitors will be behind the bar monitoring and handing out the alcohol to ensure that all of our guest are safe. We also have sober monitors that walk around the party to check on guests and ask if anyone needs water or a snack (also supplied at the bar).

House Security:

To ensure the safety of our brothers and our house, a lock is placed on the kitchen door and the stairs are made off limits by sober monitors and or social chair. Locking the kitchen and blocking off the stairs limits the parties size, but also ensures that all of the guests are within sight of the sober monitors and that no one is going upstairs for any reason, other than a brother of the house. There is a bathroom in the main entrance area that guests have access to, so there is no need to wander the house.

These three components of our security at Sigma Nu Gamma Theta Chapter: main entrance security, party patrol, and house security allow us to keep our guest and ourselves safe. We strive to make our parties a fun atmosphere while keeping safety as our number one priority.
