THE SERVICE AND PHILANTHROPY ACTION PLAN

The Service and Philanthropy Action Plan is an essential tool for outlining the chapter's strategy for success in the areas of community service and philanthropy. While this plan will not complete the task of volunteering hours or fundraising for causes your chapter supports, it is an important first step in preparing the chapter to make thoughtful, values-driven decisions throughout the academic year.

The foundation of this plan is grounded in the idea that Sigma Nu chapters should be committed to Servant Leadership. As defined by Robert Greenleaf, servant leadership is focused on enhancing the growth of others and improving the caring of our institutions through a combination of teamwork, community, personal development, and ethical decision-making. With Sigma Nu's Mission, "To develop ethical leaders inspired by the values of Love, Honor, and Truth..." it's easy to see why servant leadership is such an important part of the Sigma Nu experience.

This plan will help the chapter think strategically about the operational necessities of service and philanthropy as well as consider the important components of how the chapter can commit itself to servant leadership and the development of ethical leaders.
