Values-Based Leadership Service and Philanthropy

Values-Based Leadership

Sigma Nu transforms society through the commitment of its members to the Fraternity's founding principles, leadership, and ethical living.

Values-Based Leadership focuses on the role that chapters and their members play in the communities in which they are embedded. As current and future leaders, we must model exemplary citizenship and create positive environments.

Service and Philanthropy

Future leaders are transformative throughout the communities they interface with. Service to others, through the donation of time, talent, and treasure, is a core mechanism for creating leaders as engaged citizens in their local community.

Key Definitions:

- **Service** – giving of your time and talent to directly benefit another or an organization. This includes efforts like assisting with a Habitat for Humanity build, serving as a big brother/mentor to a child, helping school children with after-school tutoring, working at a food bank, and related activities. **The purpose of these activities is directly assisting some other person or organization through your volunteer work.**
- **Philanthropy** – giving of your treasure. This includes the chapter's efforts to raise money for charitable organizations (e.g. letter writing for St. Jude, raising money for and participating in Dance Marathon, chapter or member donations to a local or national cause). **The purpose of these activities is to raise funds for another person or organization. Do not count member participation in fundraising or competitions and celebrations related to philanthropy as "service hours."**
 - Both service and philanthropy are equally important endeavors that allow chapters and members to give back to the local, national, or global community. Each has its own benefits and both should be valued and undertaken by Sigma Nu members and chapters.

1. Which **community/campus service-oriented** and **philanthropic events** did the chapter **plan**? Indicate and describe events held and the months in which those events took place (e.g. chapter planned a 5K event that raised \$2,000 for local animal shelter in April). Include a detailed description of how chapter members were involved in and planned/executed each event.

Values-Based Leadership Service and Philanthropy

2. Which **community/campus service-oriented** and **philanthropic events** did the chapter **participate in**? Indicate events participated in, months in which those events took place, and describe the chapter's participation in each event (e.g. chapter fielded a team that fundraised \$500 and participated in the campus dance marathon in February). Include a detailed description of how chapter members participated in each event.

3. How did the chapter incorporate periodic reflection after **service and philanthropic activities** to help members process the experiences described above?

4. How did the chapter educate its members on the importance of servant leadership (e.g. did the chapter conduct LEAD Phase I Session 11 on Community Service or some other workshop to explain the importance and benefits of servant leadership)?

5. How did the chapter collaborate with other student organizations on campus (Greek or other) on any projects? Indicate which groups were worked with on each project.

6. Explain the individual **community service** conducted by each of your members. Indicate any service efforts done outside of chapter-sponsored activities.
