A Note on the Evaluation Guidelines

The Evaluation Guidelines provide an objective standard of assessment for all chapters by defining benchmark criteria for each achievement level from Poor to Excellence. The guidelines contained within this document show the levels from Acceptable to Excellence along the assessment continuum. While all chapters should direct their efforts towards, and strive for achievement in, the Excellence range across all subcategories, a level of Acceptable must be attained in each for chapters to remain in good standing with the General Fraternity.

Chapters receiving an achievement level below Acceptable in a subcategory must submit an improvement plan in that area to the General Fraternity. This improvement plan should be shared with the Chapter Advisor, Division Commander, and Campus Fraternity/Sorority Advisor. Chapters receiving an achievement level below Acceptable in five or more subcategories may be placed in the **PEP Chapter Support Program**.

General Fraternity staff use the Evaluation Guidelines to determine chapter ratings in each subcategory as part of annual assessments. The guidelines create consistency across evaluations and ensure a focus on evaluating chapters individually to the standard rather than trying to rank chapters in relation to one another. The information from the evaluation is communicated back to chapters, key alumni, and campus advisors. Leadership consultants use these ratings and feedback in planning upcoming consultations for optimal effectiveness in addressing chapter needs. In this review by the General Fraternity staff, each chapter receives an achievement level on a seven-point scale that ranges from Poor to Excellence. Chapters also receive an explanation for that rating and suggestions for improvement. This feedback is important for the program to achieve its purpose of driving our chapters toward constant improvement. The full rating scale for the program is below.

Updates to the Evaluation Guidelines – Effective August 2022

The High Council updated the Fraternity's strategic plan in the summer of 2021 with a new goal to, "evaluate and re-calibrate the Pursuit of Excellence Program to continually improve chapter performance across the Fraternity." As colleges and universities have come back to normal operating conditions the High Council reviewed the evaluation guidelines to reset expectations and raise the bar for chapter performance. Criteria from both pre-pandemic and pandemic operations were reviewed, modified, extended to lower performance levels, or removed considering the future the Fraternity expects chapters to help create as we emerge from the pandemic. In this way, the Pursuit of Excellence Program has taken the best, most relevant criteria from pre-pandemic, retaining criteria modified during the pandemic to continue to spur chapter innovation, and bringing in additional criteria from similar campus-based or other national fraternity programs to keep Sigma Nu chapters striving for the optimal fraternity experience. Finally, the High Council's review was conducted to ensure the evaluation guidelines:

- Appropriately reflect the Fraternity's strategic plan, policies, and programs.
- Provide clear distinctions between each performance level.
- Continue to promote improvement of chapter operations relative to achieving increasing levels of excellence.

The High Council reviewed pre-pandemic and pandemic era criteria, as well as suggestions from General Fraternity staff to institute best practices for chapters as an expectation (i.e., Acceptable criterion) and/or at higher positive performance levels. The resulting updates to the evaluation guidelines include:

- Removing criteria that are no longer relevant due to changes in Fraternity policy, practice, and programs.
- Retaining or modifying criteria that were amended during the pandemic and have promoted innovation and improved efficiency and effectiveness in chapter operations.
- Adding new criteria to promote continuous improvement by chapters, to ensure clear distinctions between each performance level, and to institute Fraternity or fraternal community best practices.

More information on the process used to update the evaluation guidelines in 2014, during the pandemic, and in 2022 is available [here](#).
